www.medcan.es

Cannabis and its active constituents called cannabionoids have been used medicinally for thousands of years. In spite of this, its use as a therapeutic agent is presently a matter of considerable debate causing heated scientific and social arguments and controversies all around the world. MEDCAN has been founded in order to empower people to truly know accurate and reliable information given by qualified and experienced physicians. Therefore we have a wide range of products and services to people interested in knowing the therapeutic potential of cannabis.

SERVICES

- Formal meeting or online medical consultations with collegiate members, who are qualified and specialized doctors in endocannabinology
- Medical reports to cannabis users for therapeutic reasons
- Physiotherapy service for patients who need joint or muscle pain relief using the best oils and creams made from cannabis
- Talks and trainings on the therapeutic use of cannabis
- A genuine approach to do joint work with other cannabis and patients associations

With the collaboration of **Drs. Albert Estrada** and **Ramírez Mirabal**, and physiotherapy specialists.

DID YOU KNOW?

CBD is one of the main cannabinoids made from hemp. It has powerful and uncountable qualities and it has no psychoactive effects and it is legally accessible.

PRODUCTS

Hemp has anti-inflammatory, analgesic, antioxidant and anti-bacterial effects. The extract of its seeds is a great source of essential fatty acids, gamma-linoleic acid and Omega 3-6. As a consequence, it is highly nutritious and regenerative. Our store offers a wide selection of products derived from hemp and its seed.

HEALTH WITH CBD

- Sublingual oils
- CBD crystals
- Pills
- Creams and ointments
- CBD nectar

TOPICAL USE

- Hemp seed extract products
- Body treatments
- Facial treatments
- Personal hygiene

VAPE

- Desktop and portable vaporizers selection
- Precision equipments
- Advice and protocol assistance on how to use the vaporizer for therapeutic patients

NUTRITIONAL CATEGORY

- Food supplements
- Hemp seeds
- Pasta dough products
- Coffee and tea infusions
